

## **Out of hours deliveries— rescheduled**

Enabling work for the Randwick Campus Redevelopment and new Prince of Wales Hospital Acute Services Building is underway and piling activities will soon commence.

**Oversize equipment including a piling rig and crane will be delivered to the construction site during the early morning of Monday 27 May 2019 (deliveries will occur between 2:00am and 6:00am).**

Deliveries may need to be rescheduled due to unforeseen circumstances, road network conditions or weather events.

It is a requirement of Roads and Maritime Services that deliveries of this size occur out of hours for traffic and safety reasons.

The deliveries will be made via Botany Street and Site Access Gate 2 using oversized trucks.

Equipment will be unloaded at Botany Street Gate 2 and moved inside the site boundary. Traffic controllers will be in place to support vehicle and pedestrian safety.

Lighting towers will enable safe unloading of oversize equipment and will be positioned to minimise light spill on surrounding buildings.

Thank you for your patience as we undertake this important work.

## **Getting in touch**

We encourage you to get in touch with us if you have any questions, feedback or complaints.
