

Community Notice - March 2019

Randwick Campus Redevelopment site establishment and early works are well underway. Final preparatory works will be undertaken throughout March and early April to prepare for construction of the new Prince of Wales Hospital Acute Services Building.

Randwick Campus Redevelopment complies with strict environment and planning controls. Mitigation measures are in place to manage noise, dust and vibration. We are working closely with Transport for NSW, CBD South East Light Rail and UNSW to manage and coordinate construction in the area.

The health and safety of patients, families, visitors, staff and the community is our top priority.

Work continuing during March 2019

- Remediation of ground-fill
- Excavation
- Out of hours machinery deliveries
- Completion of gate installation on Hospital Road for light vehicle access during site establishment
- Services diversions
- Sheet piling
- Tree removal and clearing of vegetation
- Temporary modifications to the hoarding boundary on Botany Street, High Street and Magill Street

Upcoming activities may be rescheduled due to unforeseen circumstances or inclement weather.

Upcoming activity – March 2019

Activity	Description
Temporary modification of the hoarding boundary – Installation of a covered walkway on Botany Street	<p>A temporary covered walk way will be installed at the intersection of Botany and High Streets.</p> <p>The temporary covered walkway will allow construction activity to be safely undertaken within the site boundary. This change will be in place for approximately 8 months.</p> <p>Work to install the covered walkway will occur outside the construction hoarding on the pedestrian footpath. Pedestrian diversions will be in place under the support of traffic control.</p> <p>To safely undertake work, a temporary exclusion zone will be established on the Botany Street footpath. Work will be carried out inside the exclusion zone. A truck will be used to unload material within the site boundary. Personnel and hand equipment will be used to establish the temporary structure.</p> <p>This work will occur out-of-hours between 8:00pm and 5:00am when pedestrian and traffic volumes are lower.</p>

and ask them to call 02 9978 5402

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on 131 450 and ask them to phone Randwick Campus Redevelopment on 1800 571 866.

<p>Replacement of barrier gate Hospital Road</p>	<p>A vehicle access barrier will be reinstated at the northern end of Hospital Road during March. This barrier gate is part of the Randwick Hospitals Campus infrastructure used to control Hospital Road access.</p> <p>The gate will be delivered to Hospital Road and installed by site personnel.</p>
<p>Installation of Hospital Road site access gate</p>	<p>A construction vehicle access gate will be established on Hospital Road.</p> <p>To establish the gate restructuring of the existing kerb and creation of new driveway is required. This will include machine and manual digging, concreting and installation of the gates.</p> <p>Traffic control will be in place to support traffic movements.</p>
<p>Tree removal and branch trimming</p>	<p>During March, trees with branches overhanging the High Street and Hospital Road site boundary will be removed.</p> <p>To safely remove overhanging branches a temporary exclusion zone will be established. Traffic control will be in place to support vehicle and pedestrian movements.</p> <p>Tree removal will be undertaken by a skilled arborist using chainsaws, tree trimming and mulching equipment.</p>
<p>Temporary hoarding realignment</p>	<p>To safely undertake services upgrades, site hoarding along High and Magill Streets will be relocated to align with the existing kerb. Realignment of the site hoarding will allow construction activities to be safely undertaken within the site boundary.</p> <p>To undertake the hoarding realignment, work will be undertaken both within, and outside of the site boundary. This work will occur within standard site hours.</p> <p>Pedestrian diversions will be in place to maintain pedestrian access along Botany and High Streets. Diversions are being coordinated with CBD South East Light Rail work.</p>
<p>Water disconnections</p>	<p>Water disconnection work to disconnect water supply from vacated properties will continue along Botany and High Streets.</p> <p>Disconnection work requires saw cutting of the road surface, manual and machine digging to reach each water connection point, backfilling and road restoration. Small excavators, saw cutters, some truck and personnel will be used to carry out this work.</p> <p>Access for road users and pedestrians will be maintained at all times. There will be no disruption to services during this time.</p> <p>This work will occur out-of-hours between 8:00pm and 5:00am when traffic volumes are lower.</p>

Keeping you informed

We encourage you to get in touch with us if you have any questions, feedback or complaints.
