

RANDWICK

CAMPUS REDEVELOPMENT

Magill Street upgrade

Construction activity will commence from **Monday 7 February 2022** on the southern side of Magill Street and move progressively from east to west, towards Botany Street. The upgrades are expected to take approximately 14 weeks to complete.

Construction activity involves:

- site establishment with temporary fencing
- removal and reinstalment of kerbs
- construction of the road base and asphaltting
- footpath construction on the northern side of the street
- general landscaping and tree planting

Approved working hours are:

- 6am to 10pm, Monday to Friday
- 7am to 5pm, Saturdays

Magill Street will be limited to residential vehicles and the Magill Street and Hospital Road intersection will be closed for the duration of works.

Traffic control and signage will be in place to ensure the safety of road users and pedestrians. Pedestrian access on the southern footpath will be maintained at all times, with local pedestrian diversions in place.

We will continue working with affected residents for the duration of the upgrade to ensure alternative arrangements are provided for works impacting residential driveway access.

Mitigation measures to manage noise, dust and vibration will be in place, including noise and vibration monitoring, respite periods for higher noise activities and wetting down of the work area to minimise dust.

Work may be rescheduled due to unforeseen circumstances of inclement weather.

Thank you for your patience while we deliver this important work.

Plan of the Magill Street upgrade
