

RANDWICK

CAMPUS REDEVELOPMENT

NOTICE OF CONSTRUCTION ACTIVITY

To support the Prince of Wales Hospital refurbishment works program being delivered as part of the Randwick Campus Redevelopment project, demolition construction activities have commenced in vacated areas across the Randwick Hospitals' Campus. Temporary construction zones have been established to facilitate these works.

The vacated areas include:

- Level 3, Building 13, Randwick Hospitals Campus Centre (future Central Equipment Store)
- Level 0, Building 15, Dickinson Building (future Haemodialysis / Nephrology Outpatient Unit)
- Level 0, Building 15A, Former PECC (future Security Services and PoWH on-call rooms)

Demolition works are expected to be completed by mid-February 2025 and are taking place between 7am and 5pm on weekdays. During this period, barricades and hoarding will be established around the temporary construction zones.

The work will include demolishing partitions, doors, flooring, ceilings and joinery which will result in localised noise and dust impacts within the construction zone. Mitigation measures will be in place to minimise noise as much as possible, including sealed perimeter walls and sticky mats.

A site manager will be present throughout the works to address any urgent issues. Contact details will be provided on the hoardings and barricades surrounding the construction zones.

Should you have any concerns or unexpected impacts to report, please direct them to your line manager in the first instance.

For details of the ongoing works that will follow demolition activities, refer to the [project fact sheet](#).

Location of temporary construction zones

Thank you for your patience while these important works are undertaken.

Kind regards

The Project Team
