

RANDWICK

CAMPUS REDEVELOPMENT

RESCHEDULED WORKS - Out of hours construction activity and temporary weekend closure of Delivery Drive planned for this weekend has been rescheduled to 11-13 and 18-20 February 2022.

Hospital Road and Delivery Drive construction continues to support delivery of the Prince of Wales Hospital Acute Services Building.

Out of hours weekend work is required as part of these activities with the temporary closures of Delivery Drive from **5pm Friday 11 February to 10pm Sunday 13 February and 5pm Friday 18 February to 10pm Sunday 20 February.**

During the planned weekend closures, structural works will be carried out for the link bridges connecting the Acute Services Building to the existing campus. This work will occur within the Prince of Wales Hospital loading dock.

Due to the size of the prefabricated bridge structures, out of hour truck deliveries are required to access Hospital Road from Barker Street. Deliveries are scheduled for **Saturday 12 February and Saturday 19 February, between 1:00am – 2:30am**, managed with traffic control.

The Randwick Campus Redevelopment complies with strict environmental and planning controls. Measures are in place to monitor and manage noise, dust and vibration.

Planning for temporary closures has occurred in close consultation with the Hospital Campus. Please note that work may be rescheduled due to weather or unforeseen circumstances.
