

Notification of intermittent works – construction machinery and equipment deliveries, February 2024

To support ongoing construction of the new Sydney Children's Hospital Stage 1 and Minderoo Children's Comprehensive Cancer Centre, and the adjacent UNSW Health Translation Hub, out of hours activity to deliver construction machinery and equipment will take place intermittently throughout 2024.

Upcoming out of hours deliveries are planned for up to 12 mornings between Thursday 1 and Thursday 29 February inclusive.

To support these deliveries, trucks and trailers will park along Botany Street under traffic control or access the construction site from Botany Street site entrance between **midnight and 7am**.

Unloading of machinery and equipment will commence from 7am as per standard construction hours.

These works may result in minor noise impacts from vehicles entering and exiting the site, along with the unloading of equipment.

For any questions or concerns about this work, please contact the project team.

Thank you for your ongoing patience while we deliver these exciting projects.

Please note that activity dates and times are subject to change.
