

Notification of night works – water main service investigations

To support ongoing construction of the new Sydney Children's Hospital Stage 1 and Minderoo Children's Comprehensive Cancer Centre, evening activities are required to complete investigations of existing Sydney Water Authority assets along High Street.

Approved out of hours works are scheduled to occur between 8pm and 5am on the night of Monday 20 November, weather permitting.

Activities will include the establishment of investigation zones, identification of underground services and temporary removal of street utility hole covers to inspect services, requiring associated tools and equipment use.

Some noise impacts may be experienced.

During these activities, there will be limited access to sections of High Street, including the footpath, in the vicinity of the construction site between Avoca Street and Botany Street, with pedestrian and vehicle diversions in place.

For any questions or concerns about these activities, please contact the project team via the details below.

Thank you for your patience while we work to deliver this exciting project.

Please note that activity dates and times are subject to change.
